Lecithin Drilling & Tapping Fluid for All Plastics

Why was LECITHIN DRILLING & TAPPING FLUID developed?

Lecithin Drilling & Tapping Fluid for All Plastics was developed to allow you to drill and tap plastics without leaving a build-up. Eliminates chipping of plastics along with the prevention of build-up on cutting bits.

DESCRIPTION:

Lecithin Drilling & Tapping Fluid for All Plastics has a dry film with a lasting residual. This product will not alter secondary operations and will not alter electronic signals. Lecithin Drilling & Tapping Fluid for All Plastics will give you a smoother drilling and tapping process. Lecithin Drilling & Tapping Fluid helps to control contamination and eliminates chipping of plastics and prevents build-up on cutting bits.

PERFORMANCE CHARACTERISTICS:

- Dry film
- Lasting residual
- Eliminates over-spray
- Controlled application
- Helps control contamination
- Eliminates chipping of plastics
- Prevents build up on cutting bits
- Smoother drilling & tapping process
- Will not alter secondary operations
- Will not alter electronic signals

SUGGESTED USES:

For all secondary operations where drilling and tapping is critical.

For eliminating all chipping and cracking of most plastics to give you a smooth high performance finish.

REMOVAL:

No removal is necessary if used properly.
